This vocational course is designed for someone who is a hands-on and passionate about technology. You will be able to gain entry-level employment in roles such as **Cloud Service Specialists** or **Cloud Engineer**.

- Plan, design and deploy a server and System Centre infrastructure
- Implement a hybrid cloud infrastructure using System Centre and Microsoft Azure
- Deploy Office 365 Services
- Create a SharePoint infrastructure
- Provide advanced solutions with Microsoft Exchange
- Design, configure and manage advanced security
- Configure data centre process automation
- Design, configure and manage site resiliency
- Design and implement an Active Directory infrastructure (Logical and Physical)
- Install, configure, upgrade and troubleshoot server and storage solutions (including both rack-mount and blade systems)

Creating IT professionals through excellence in education

Our **Employment Pathway Team** will guide, prepare, motivate and encourage you to get the job you want using our large network of employment partners.

What's next:

To apply for this full-time course:
